HOW TO IMPROVE HOTEL MANAGEMENT SKILLS

A hotel manager is responsible for making sure that all areas of the facility operate and work together as smoothly as possible to ensure a positive experience for guests. In order to succeed in this field, consider following these steps to improve your skills:

- ✦ Learn financial management.
- ✦ Gain a better understanding of marketing.
- ✦ Be flexible.
- ✦ Improve your leadership skills.
- ✦ Strengthen your communication skills.

Learn Financial Management

Financial management is a key skill because the general manager and department heads are responsible for managing and sticking to the hotel budget. The manager of the hotel is in charge of the overall budget, while each department head is usually responsible for tracking expenses. By taking finance and budgeting courses, you can learn more about the financial aspect of operating a hotel and the funds that come in and out.

Improve your Leadership Skills

Leadership is also an essential skill for a manager because they have to lead a team that can include hundreds of people at a large lodging establishment. Hotel managers should be willing to listen to feedback from employees, take steps to improve morale, delegate tasks to members of various teams and make decisions quickly and confidently. Improving your leadership skills often comes through experience, although skilled leaders offer leadership training courses and seminars.

Gain a Better Understanding of Marketing

Although a hotel may have a designated marketing department, hotel managers are generally quite involved in all the different departments to ensure smooth, efficient operation. Marketing involves generating awareness about a brand or company, as well as creating positive interactions for those who engage with the brand. You can learn more about marketing a business by taking courses online or through a higher education institution in your area.

Strengthen your Communication Skills

A hotel manager will use written and oral communication skills when performing a variety of tasks in this role. They may produce written communication to distribute to the various department heads or team members regarding policy or process changes. Hotel managers also interact directly with guests at the hotel, so they need to be able to listen effectively and respond to concerns efficiently. Communication skills are also vital when learning how to interact with guests who are unhappy with their service, as managers are responsible for addressing and resolving concerns. Experience will help you improve your communication skills, as will training and education in the area.

Be Flexible

Flexibility is another key skill for a hotel manager. In this role, you will often face unexpected and unforeseen issues that must be managed as quickly as possible. Issues often arise at inconvenient times, such as when the hotel is hosting a major event or large group of guests. A potentially negative experience can be turned around by a hotel manager who is flexible and willing to adapt to any situation and who is empathetic toward the guests and truly wants to find a resolution that satisfies all involved parties.

BOOST AND IMPROVE YOUR IMMUNE SYSTEM

SPINACH

Spinach made our list not just because it's rich in vitamin C - it's also packed with numerous antioxidants and beta carotene, which may both increase the infection-fighting ability of our immune systems. Similar to broccoli, spinach is healthiest when it's cooked as little as possible so that it retains its nutrients. However, light cooking makes it easier to absorb the vitamin A and allows other nutrients to be released from oxalic acid, an antinutrient.

PAPAYA

Papaya is another fruit loaded with vitamin C. You can find double the recommended daily amount of vitamin C in a single medium fruit. Papayas also have a digestive enzyme called papain that has anti-inflammatory effects. Papayas have decent amounts of potassium, magnesium, and folate, all of which are beneficial to your overall health.

Tips

Never put olive oil or butter in a super hot pan it will burn very quickly (or worse, catch on fire). This is because they both have low smoke points, meaning they can burn very easily. Instead, use vegetable or peanut oil anytime you're cooking with high heat to prevent it from burning and giving your food an off flavor.

Dentist writes to the patient : "Pay up. After all, I enabled you to eat".

Patient replies

: "If things don't improve you can have your teeth back."

Always use ghee or vanaspathi with or instead of oil, which gives
a good flavour to the gravy. If oil alone is used, it does not get
separated easily from the ground mixture, as ghee separates from it.

Wine of the Month

More than thirty vintages after its first release, Don Melchor has accomplished an unparalleled record, showcasing Chile's potential for crafting world-class Cabernet Sauvignon from Puente Alto Vineyard. Don Melchor 2017 marks the 30th Anniversary of the winery, characterized by a great harvest and a wine of extraordinary elegance and balance. The year was warmer than usual, with less precipitation than average, contributing to the final blend of 98% Cabernet Sauvignon and 2% Cabernet Franc. The wine aged for 15 months in French oak barrels (67% first use, 33% second use). Deep cherry red in color, Don Melchor 2017 is highly aromatic and with notes of black cherry and red fruit. On the palate there are strong notes of Cabernet Sauvignon from Puente Alto, with fine and delicate tannins, in addition to good density and a long-lasting finish.
