INGREDIENTS OF THE MONTH

Brocoli

Most widely used vegetable around the world

See BROCOLI included recipes

Uses:

The plant is used because of its large food reserves, which are stored over the winter in its leaves.

It should not be overcooked, as this destroys much of the flavor and most of the nutrients..

Medical Merits

The antioxidants present in it appear to reduce the risk of some cancers, perhaps by preventing the formation of carcinogens in your body or by blocking cancer-causing substances from reaching or reacting with sensitive body tissues or by inhibiting the transformation of healthy cells to malignant ones.

The anti-cancer properties of cabbage are so well-established that the American Cancer Society recommends that Americans increase their intake of cabbage and other crucifer crops.

Color/Flavor/Aroma

GREEN, The leaves are simple, alternate and without stipules. Many times they are pinnately lobed

QUOTES FOR THE MONTH

- ☉ Three things in life once gone never come back Word; Opportunity; Time
- ☉ Three things in life are never sure Dreams; Success; Luck

- ☉ When you talk you are only repeating what you already know, but if you listen, you may learn something new.
- ☉ Send forth loving, stainless, and happy thoughts and blessings will fall into your table will be spread with the cloth of peace.
- ☉ Friendship does not need powerful eyes, a cute voice, and a lovely face. It always needs a responsible heart with lovable affection forever.
- ☉ Happy people don't have everything best in life. They just make the best of everything in their life. Make things interesting and stay happy!!
- ☉ Many persons will come into life just like rain on earth, But, only some will take the best place like the drop which fortunately becomes a pearl.
- ☉ True friends have the most unique character like SALT. Their presence is never remembered but their absence makes all the things insipid.
- ☉ Successful people always have two things on their lips- SMILE and SILENCE Smile solves the problems and Silence avoids the problems.

A little boy, at a wedding looks at his mom and says, "Mommy, why does the girl wear white?" His mom replies, "The bride is in white because she's happy and this is the happiest day of her life." The boy thinks about this, and then says, "Well then, why is the boy wearing black?"

Use Whatsapp through your Computer

Whatsapp is one of the most popular messaging apps available today. Whatsapp, which was acquired by Facebook recently, can finally be accessed through desktops or laptops. So now you can use your Whatsapp profile not only through your smartphone but also through your computer.

To use Whatsapp web, just head on to this site. Whatsapp Web can be used by users who have a smartphone running Android, BlackBerry, Nokia S60 or Windows Phone. Whatsapp Web won't work with iPhones! And you need Chrome or Opera browser to use the Whatsapp Web service.

Whatsapp Web is very easy to use. You'll need to have the latest version of Whatsapp installed on your smartphone. If you do not have the latest version, update Whatsapp. After updating, just go to the Whatsapp Web website from Google Chrome browser. Then open up your Whatsapp app from your phone and select Whatsapp Web from the menu. A QR code reader pops up. Then all you have to do is just scan the QR code which is displayed on the Whatsapp Web website. After scanning is done, it will sync with your smartphone and you are good to go.

There are many advantages to using Whatsapp from your computer. First of all you can type messages from an actual keyboard, which is (to some) a breeze when compared to the keyboard in your smartphone. You can download media directly to your computer. You can also share media and also use your webcam. You can also start new conversations, make group chats, view contact details, etc. You can connect multiple computers to your phone as well as disconnect any from your phone.

There are many demerits as well. You cannot start a new group or leave a group from Whatsapp Web. The keyboard doesn't have an Emoji section, but you can add Emojis available in the website. You won't be able to share contacts or maps. Nor can you block users or change your profile pic or status. Even though you can connect multiple browsers to your phone, you can't use two browsers at the same time.

This is a job well done by Whatsapp. Now we can finally access Whatsapp from our computers and chat using the keyboard. This is just the beginning and the Whatsapp team will definitely try to make the Whatsapp Web experience better.
