QUOTES FOR THE MONTH

- ☉ Be nice to your kids.. they'll be the ones choosing your nursing home.
- ☉ Sports do not build character. They reveal it.
- ☉ The wisest mind has something yet to learn.
- ☉ Having one child makes you a parent; having two makes you a referee.
- ☉ Aim low, reach your goals, and avoid disappointment.
- ☉ This is the secret to life... "Replace one worry with another'....
- ☉ Happiness is a wondrous commodity, the more you give, the more you will have.
- ☉ Pride is tasteless, colourless and size-less. Yes it is the hardest thing to swallow.
- ☉ The first quality of a leader is optimism.
- ☉ There are two ways of spreading light; to be a candle, or to be the mirror that reflects it.
- ☉ Leadership is the art of getting someone else to do something you want done because he wants to do it.
- ☉ Leadership cannot really be taught. It can only be learned.

TIPS

If you have dry and rough facial skin, prepare a paste of equal amount of mashed muskmelon, pumpkin, cucumber and watermelon. Blend the mixture with milk cream and apply it on your face. Leave the paste to dry for one hour and rinse it using plain water. It lifts away the dry skin, giving a fresh vibrant look to your skin.

MSG Manufacturing Process

MSG Safety Certification

FSSAI: Subjected to good manufacturing practices (GMP) no defined level prescribed in the FSSAI act, FSSAI Clause No: 3.1.11 Sub Class No: (XXIII): Use of flavor enhancer (MSG) in following food items is allowed - noodles seasoning and pasta, meat tenderizer, onion salt, garlic salt, oriental seasoning mix etc. In table 10 referring to FSSAI in the seasoning mix, culinary powder category dosage of MSG is given as GMP.

US FDA: In 1995, the Federation of American Societies for Experimental Biology (FASEB) reaffirmed the safety of MSG for the general population. In its review, commissioned by the FDA, FASEB found no evidence linking MSG to any serious or long-term health effects, which led the FDA to again reaffirm that MSG is a safe food ingredient at normally consumed levels.

JECFA: Conclusion made by JECFA: ADI not specified. JECFA* evaluated the safety of glutamate in 1970, 1973 and 1987. After three safety evaluations, JECFA placed MSG in the safest category, "Acceptable Daily Intake (ADI) not specified". *JECFA is a prestigious scientific advisory body to the World Health Organization (WHO) and the Food and Agricultural Organization (FAO) of the United Nations.

*JECFA - The Joint Expert Committee on Food Additives

European Communities: ADI not specified in 1991, the European Commission's Scientific Committee for Food (SCF) also affirmed MSG's safety. Having reviewed the most advanced and up-to-date research on glutamate, the SCF published a report in 1991 which designated an 'ADI not specified' for MSG.

FS of Australia New Zealand: Conclusion reached by Foods Standards Australia New Zealand: MSG is safe in 2002, Food Standards Australia New Zealand conducted a review of the safety of MSG. The chief scientist concluded that several recent reviews of the scientific evidence have confirmed that MSG is safe for the general public at the levels of use typically found in food.

H A H A
Once upon a time there was a woman that was about to have triplets. In her stomach the babies were talking to each other. The first baby says "I want to be a plumber, because there is so much water in here". The second baby says "I want to be an electrician because it is so dark in here". And the last baby says "I want to be a hunter, because if that damn snake comes back in here i'm going to cut it off".*Rajesh Kanna*

TIPS

Slice an apple into thin slices. Place these on the face and leave for 15 minutes. These soak up the extra oil and helps to close pores. You may even make paste of apple peel, honey, vinegar, and a dash of multani mitti. Apply for 30 minutes and rinse off with rose water. Your skin will visibly tighten and will develop a healthy, radiant glow.
