## TOP TOURIST ATTRACTIONS IN THE WORLD

**London** Here, the antiquated clasps hands with the contemporary. You'll find the historic Tower of London and the avant-garde Tate Modern both considered must-sees. Shakespeare's sonnets are still being uttered by actors who don modern garb. Londoners most certainly still respect the royals, but they also jam to the likes of Arctic Monkeys and Adele.

And while they still praise the power of tea, they now make room for some Starbucks here and there, and pressed juice too. A current leader in everything from politics and banking to fashion and music, London's culture compass is always attuned to what's next.

of Rococo- and Neoclassic -design architecture, further enhanced by cascading trees and glowing streetlamps. Peppering the Seine's cobbled walks and graceful bridges are impossibly chic Parisians, probably on their way to the market, cafe or cinema.

**Paris** The City of Light draws millions of visitors every year with its unforgettable ambiance. Of course, the divine cuisine and vast art collections deserve some of the credit as well. The gentle River Seine rambles through the city, flanked by stately museums, centuries-old churches, and blocks

## TIPS FOR A HEALTHY SUMMER

### Always apply suncream

It is important to use a suncream lotion of at least SPF 30 in order to protect your skin from harmful UV rays. For sensitive skin, a mineral-based sunscreen is best. Don't sit in the sun in peak hours between 10am and 4pm in order to minimize UV radiation. If you are planning to be out in the sun for a long period of time, reapply suncream every two to three hours.

**Drink plenty of water** During the hot summer months, heat and sweat can leave your body dehydrated. A lack of water is harmful to your body and can also make you crave food when you're not actually hungry. It is incredibly important to keep yourself hydrated by drinking at least eight to nine glasses of water a day. Bored of water? Add some low calorific flavoring to water such as a piece of fruit, or opt for healthy alternatives like green tea or coconut water.

### Olive oil

Olive oil is a healthy fat which contains essential fatty acids that help skin resist UV damage. These fatty acids are also part of the cell membranes that keep in all that moisture your body loses through heat and sweat during the summer. In order to protect your skin and keep it supple, consume about 1 tablespoon of olive oil daily or add it to a healthy salad or fish dish in order to get all those essential fatty acids.

## Learn about.....

### VIEVITÉ CÔTES DE PROVENCE ROSÉ

Though traditionally rosé brands introduce their latest vintage during the month of March, VieVité Côtes de Provence Rosé is excited to introduce the 2017 vintage, which has already reached the U.S. and is in the process of being rolled out throughout the country. VieVité, which is one of the first true Côtes de Provence rosés and currently among the top five selling brands in the rosé category, has become known over the past few years as being among the first to bring its latest vintage to market.

Though much of France experienced troubling spring frosts that will reduce this year's wine output, experts are anticipating excellent quality of rosé due in part to the juxtaposition of warm summer days and cool summer nights. Rain was scarce this summer in Provence, but the humidity of the valley that Domaine Saint Marie is nestled in saved the harvest.

While rosé is crafted to be enjoyed un-aged, it has been known to get even better within the first few years. This means that despite the excitement for the highly anticipated 2017 VieVité vintage, the currently available 2016's will continue to deliver the quality that has become synonymous with VieVité. VieVité is a national brand distributed across the U.S. by Turquoise Life Beverage Brands.
