INGREDIENTS OF THE MONTH

Arugula

Arugula was grown for both its leaves and the seed. The seed was used for flavoring oils. On another interesting note, rocket or arugula seed has been used as an ingredient in aphrodisiac concoctions dating back to the first century, ad. (Cambridge World History of Food). Part of a typical Roman meal was to offer a salad of greens, frequently arugula (spelled arugola), romaine, chicory, mallow and lavender and seasoned with a "cheese sauce for lettuce"

Uses:

It is used as a leaf vegetable, which looks like a longer leaved and open lettuce. It is rich in vitamin C and potassium. It is frequently cultivated, although domestication cannot be considered complete. It has been grown in the Mediterranean area since Roman times, and is considered an aphrodisiac. Before the 1990s it was usually collected in the wild and was not cultivated on a large scale or researched scientifically. In addition to the leaves, the flowers (often used in salads as an edible garnish), young seed pods and mature seeds are all edible.

Medical Merits:

On the island of Ischia in the Gulf of Naples, a digestive alcohol called rucolino is made from the plant, a drink often enjoyed in small quantities following a meal. The liquor is a local specialty enjoyed in the same way as a limoncello or grappa and has a sweet peppery taste that washes down easily.

Color / Flavor / Aroma: Green and has strong Flavour

Never Forget Your Past...

After eating, he gave 5\$ to the waiter as a tip.

PINE SEED FOOD

Some species have large seeds, called pine nuts , that are harvested and sold for cooking and baking. They are an important ingredient of Pesto alla genovese the soft, moist, white inner bark (cambium(found clinging to the woody outer bark is edible and very high in vitamin A and C. It can be eaten raw in slices as a snack or dried and ground up into a powder for use as an ersatz flour or thickener in stews,soups, and other foods such as bark bread. Adirondack Indians got herir name from the Mohawak Indian word atitu: Taks, meaning "tree eaters". A tea made by steeping young, green pine needles in boiling water (known as " tallstrunt" in Sweden) is high in vitamins A and C.

Tongue Twister

Through three cheese trees
three free fleas flew.
While these fleas flew,
freezy breeze blew.
Freezy breeze made these
three trees freeze.
Freezy trees made these
trees' cheese freeze.
That's what made these
three free fleas sneeze.
